

## Sigmapharm Medical Devices

Product	Ingredients	Indications
<p><b>Cerustop® Ear Oil</b></p>	<p>Caprilic/Capric Triglyceride, Paraffinum Liquidum, Isostearyl Isostearate, almond oil, PEG-40-Sorbitan Peroleate, BHA/BHT, Vitamin E</p>	 <p>Cerustop® with almond oil penetrates into the earwax making it more soluble and therefore easily removable. With a few drops of Cerustop® on a piece of cotton wool the ear can be wiped out to remove dirt and dead skin.</p> <p>Cerustop® is used to dissolve and remove excessive or hardened ear wax, to prevent inflammation of the external auditory canal, or to clean the auricle and external auditory canal.</p>
<p><b>Cerustop® Ear Oil-Spray</b></p>		<p>Cerustop® can also be used by the practitioner/ENT specialist for ear rinsing.</p> <p>Cerustop® Ear Oil is well suitable for carriers of hearing aid devices.</p> <p>Cerustop® is available as ear drops or as ear spray.</p>

Product	Ingredients	Indications
<p><b>Coldamaris Nasal and Throat Spray</b></p>	<p>isotonic solution containing standardised sea salt and the wetting agent tyloxapol</p> <p>preservative-free</p>	<div style="display: flex; align-items: flex-start;"> <div style="margin-right: 20px;">   </div> <div> <p>Coldamaris keeps the nasal and pharyngeal mucosae moist and supports their natural function.</p> <p>Coldamaris is used for moistening in the case of dry nasal and/or pharyngeal mucosa, to facilitate nasal cleansing (cleans encrusted nasal mucosa) and for colds and hay fever: Coldamaris dissolves mucus and thus helps blowing the nose.</p> <p>Coldamaris nasal and throat spray is sterile and contains no preservative. The special filter system keeps the solution sterile even after repeated use.</p> </div> <div style="margin-left: 20px;">  </div> </div>
<p><b>Coldamaris Junior Nasal and Throat Spray</b></p>	<p>isotonic sodium chloride solution with 2% Dexpanthenol</p> <p>preservative-free</p>	<div style="display: flex; align-items: flex-start;"> <div style="margin-right: 20px;">    </div> <div> <p>Coldamaris Junior keeps the nasal and pharyngeal mucosae moist, dexpanthenol provides additional care and protection for the mucous membranes.</p> <p>Coldamaris Junior is used for moistening in the case of dry nasal and/or pharyngeal mucosa and in the case of encrustation of the nasal mucosa, for supporting treatment in the case of a common cold or allergic rhinitis and for supplementing treatment when using decongestant medication.</p> <p>Coldamaris Junior contains no preservatives, child-friendly spray jet.</p> </div> <div style="margin-left: 20px;">  </div> </div>

Product	Ingredients	Indications
<p><b>Coldises® Nasal oil</b></p>	<p>Sesame Oil, Vitamin E, Bergamot Oil, Clove Oil and antioxidant (BHT)</p>	<p></p> <p>Coldises® Nasal Oil has an abirritant, regenerative and soothing effect on the nasal mucous membrane. High-grade refined sesame oil has no significant allergic potential, protects the mucosae from moisture loss and facilitates loosening of nasal encrustations. The effect is assisted by Vitamin E, which has a well-known antioxidant and skin-protective effect.</p> <p>Coldises® is used for the prophylactic and supportive treatment of dry or incrustated nasal mucous membrane caused e.g. by dry air or pollution, a common cold or allergic rhinitis, as well as for supporting treatment when using decongestant medication.</p>
<p><b>Coldises® Nasal oil Spray</b></p>	<p>Sesame Oil, Vitamin E, Isopropylmyristate, Bergamot Oil, Clove Oil and antioxidant (BHT)</p>	<p>Coldises® is available as nasal drops or as nasal spray.</p> <p>For sensitive persons, Coldises® is also available without essential oils.</p>

Product	Ingredients	Indications
<p><b>Normison® Ear Drops</b></p>	<p>Isopropyl alcohol, Water, Acetic acid, Dexpanthenol</p>	<p> The composition of Normison® facilitates quick drying of the skin surface in the auditory canal after intensive contact with water. The acidic component helps to re-establish or maintain the natural acid coating of the skin. Dexpanthenol provides additional protection and care for the skin.</p> <p>Normison® ear spray is used to prevent inflammations of the external auditory canals, especially with frequent or prolonged contact with water, e.g. after bathing, showering, swimming and diving, and as concomitant treatment when an inflammation of the external auditory canals is treated with medicines.</p>
<p><b>Normison® Ear Spray</b></p>		<p>Normison® is available as ear drops and as ear spray.</p>
